SUMMARY

Front-End Developer skilled in HTML, CSS, JavaScript, and React. Strong collaborator with a focus on user-centric design and problem-solving. Effective communicator passionate about enhancing user experiences through innovative web solutions.

EXPERIENCE

Front End Developer

InternPulse

April 2024 - June 2024, Remote

- Acquired proficiency in two new frameworks without prior experience
- Developed key website components including a sign-up method page, product listing page, and navigation bar
- Collaborated effectively with a diverse team to complete project milestones
- Recognized for outstanding performance, ranking in the top 16 out of 35 interns
- Completed the internship program, demonstrating commitment and resilience in an unpaid role

Freelance English Tutor

Preply

November 2022 - June 2024, Remote

- Provide comprehensive English tutoring, focusing on conversational skills, articulation, and pronunciation
- Teach students globally, including software engineers, to enhance their professional communication
- Achieved and maintain a perfect 5/5 rating from students for exceptional teaching quality and effectiveness
- Increased student bookings by 60% within just 2 months through high-quality lessons and positive feedback

PROJECTS

E-Commerce App

For Community, Chefs and Restaurants • [github.com/InternPulse/farmdine-frontend](#) • April 2024 - June 2024

- Developed and implemented features(product listing page ,sign up method page and navigation bar) to enhance user experience and functionality
- Collaborated with cross-functional teams to design and build a user-friendly interface
- Conducted thorough testing and debugging to ensure reliability and performance
- Utilized data analysis to optimize features and improve user engagement
- Assisted in deploying the application and providing post-launch support
- Language/Framework: TypeScript, Tailwind and Vite

Movie App

InternPulse • [github.com/Rachel2001/movie-website](#) • April 2024 - April 2024

- Designed and developed a user-friendly interface for browsing and discovering movies
- Implemented features for user authentication, movie search, and personalized recommendations
- Integrated third-party APIs to provide real-time data on movie ratings and reviews
- Conducted extensive testing and debugging to ensure seamless user experience and app stability
- Deployed the app to production and provided ongoing maintenance and updates
- Language/Framework: React

EDUCATION

High School Diploma

Minor in Mathematics, Physical Science, English, Biology/Life Science and Geography • Kensington High School

• Cape Town, South Africa • 2020 • Bachelor's pass

CERTIFICATIONS

Front End Development

SheCodes Bootcamp • 2024

- Gained proficiency in HTML, CSS, Bootstrap, JavaScript and React, essential for web development
- Learned best practices for responsive design, ensuring websites function seamlessly across devices
- Developed hands-on experience with modern front-end frameworks and tools

- Enhanced problem-solving skills through real-world coding challenges and projects
- Improved ability to create interactive and visually appealing user interfaces
- Strengthened foundation in front-end development, directly applicable to roles in web development and design

AI Fundamentals/Career Essentials

ALX Bootcamp • 2024

- Studied the fundamentals of artificial intelligence, including machine learning and deep learning concepts
- Explored techniques and best practices for effective AI prompting and natural language processing
- Gained knowledge in generative AI, including the creation and application of AI-generated content
- Applied AI techniques to enhance data visualization, improving insights and decision-making
- Completed hands-on projects to visualize complex data sets using AI-driven tools and methodologies
- Developed a strong understanding of how to integrate AI solutions into various data visualization scenarios

Internpulse Finalist

Internpulse • 2024

- Successfully completed an intensive internship program, demonstrating strong technical and collaborative skills
- Earned a certification for outstanding performance in a competitive challenge
- Ranked in the top 16 out of 35 participants, highlighting dedication and excellence
- Developed proficiency in new frameworks and contributed to key project components
- Recognized for ability to learn quickly and apply new skills effectively in a team environment

SKILLS

Technical Skills:

Front End- HTML, CSS, and JavaScript
Frameworks: Tailwind, Bootstrap, React, TypeScript
Responsive and Mobile-First Design
Cross-Browser Compatibility
Version Control and Collaboration
Performance Optimization

Non-Technical Skills:

- Creativity
- Collaboration
- Adaptability
- Attention-to-Detail
- Communication
- Problem-Solving
